Remembrance Day Poppies

This month, ALCC students learned the importance of Remembrance Day, and the history and significance of wearing a poppy on the eleventh of November. In addition to engaging in some friendly competition with fun Remembrance Day trivia, they also crafted their very own poppy pins. Fun fact: the oldest poppy factory in the world was established in 1922 in London, England, in a former shirt collar factory, and later moved to Richmond in 1925.

Park Lane Scavenger Hunt

Being located downtown means we are fortunate to have numerous venues and facilities at our disposal, but the sheer amount of businesses, buildings, and public spaces can sometimes be overwhelming for newcomers to the city. To become familiar with one of downtown Halifax's most popular shopping centres, ALCC students were tasked with a scavenger hunt of specific places, services, and items at Park Lane Mall. A great opportunity to become familiar with all that it has to offer!

Museum of the Atlantic

Are you interested in the infamous Titanic, Mi'kmaq culture, or the Halifax explosion? If so, you can learn about all of this and more at the Maritime Museum of the Atlantic, located on the Halifax waterfront. Our students had the opportunity to take a guided tour of this valuable display of Atlantic Canada's history and culture, and even for those who were not visiting for the first time, everyone learned something new!

French at ALCC

We are proud and excited to announce that as of this year, ALCC is now officially officially recognized as a provider of programs for both of Canada's official languages: English and French! Being familiar with both languages can open the door to endless opportunities anywhere in the country, so if you or someone you know is interested in becoming familiar with French, be sure to keep an eye on our website, <https://www.alcc.ca/>, for future French programs!
